

# WHY CHOOSE KUNDEL WORKSTATION CRANES

## SNAPTRAC

1. Modular, Expandable
2. Enclosed Electrical Bar Option
3. 4" foundation requirement
4. 1/2 Ton capacity
5. Remains level throughout
6. Harness Electrical Connections - Quick hoist removal
7. Posts - built in leveling adjustments
8. Coverage - Maximum due to short endtrucks
9. Finish - Powder coated & boxed
10. Sizes - 8' & 12' lengths

NOTE: Installation 1/2 the time due to free standing cantilever post design

VS.

## JIBS

1. Non-Modular, Non-Expandable
2. Outbound festoon
3. Large & Expensive Foundation required
4. Varies
5. Drifts to low point
6. Connections - slow & hard wired
7. Shim to level
8. Coverage - limited radius coverage
9. Finish - painted & not boxed
10. Sizes - varies

NOTE: Installation longer due to shimming, grouting and large foundation requirements (approx. \$1,500)
